Usage	Due to systems limitations in our supplier data gathering application and compliance systems, the substance(s) above may be shown as SVHC for a given TE Part Number. Please note, any such substance would have been used as a solvent or carrier that is no longer present after processing, or has reacted to form a different substance during manufacturing. Accordingly, any declared substances above are not actually present above threshold limits in the TE finished product. Again, any of the substances above are only reported due to limitations in our systems.
Handling Instructions	As these substances are not actually present in TE products greater than threshold, there are no additional health risks from normal handling in accordance with good industrial hygiene practices. Use the product as recommended per the applicable product specification.
Disposal Instructions	Recycle if possible and dispose of the article by following all of the applicable governmental regulations that are relevant to your geographic location.
