

## REACH Substance of Very High Concern (SVHC) Document

SVHC\_D4\_D5\_D6\_TE  
Issue 1 - 11 Sep 2019  
Page 1 of 1

**Information regarding materials present in TE products is provided based on reasonable inquiry of our suppliers and represents our current actual knowledge based on the information provided by our suppliers. Information regarding risks associated with the SVHC contained in this type of product is based on 1) the intended use(s) of this type of product; 2) TE's current understanding of health and environmental risks associated with such use(s), obtained from information provided by the regulatory bodies as of the date this document was prepared; 3) certain assumptions regarding normal and expected exposure pathways and the frequency and extent of the exposure encountered during use of this type of product. This information is subject to change.**

The following information is provided in accordance with Article 33 of the REACH Regulation (EC) No. 1907/2006

**Company**

**TE Connectivity**

for SVHC concentration information

**Usage**

The most significant use of D4, D5, and D6 in EEE is for the manufacture of silicone polymers and copolymers. It can be found in a select few silicone based seals, gaskets, and grommets.

**Handling Instructions**

D4, D5, and D6 in TE products do not present health risks from normal handling in accordance with good industrial hygiene practices: do not consume food or drink while handling the products; wash hands after working with the products. No other special handling techniques are required when working with this product. Use the product as recommended per the applicable product specification.

**Disposal Instructions**

Recycle if possible and dispose of the article by following all of the applicable governmental regulations that are relevant to your geographic location.
