

Basic features

Use	for photoelectric retroreflective sensors
Version	Reflective film, micro-glass balls

Environmental conditions

Ambient temperature	-20...60 °C
----------------------------	-------------

Material

Housing material	Film
Material sensing surface	Glass

Remarks

The degree of reflection is at maximum for vertical light infall.
Possible deviations in the reflector structure have no effect on function.

Mechanical data

Dimension	200 x 200 x 0.5 mm
Mounting	Self-adhesive
Sensing surface	400.0 cm ²

Optical features

Light type	non-polarized light
-------------------	---------------------
