

Basic features

Principle of operation	Sealing element
Use	for sealing of pressure rated sensors M8

Material

Gasket, material	PO 11
Material	PA
Surface protection	phosphated

Environmental conditions

Ambient temperature	-40...110 °C
----------------------------	--------------

Mechanical data

Pressure max.	400 bar
Tightening torque max.	15 Nm

Remarks

The sealing nut seals simultaneously against liquids and gases after unscrewing and re-tightening up to five times.
