

### Basic features

<b>Scope of delivery</b>	Beam deflector
<b>Use</b>	for photoelectric sensors BOS 18M
<b>Version</b>	90° lens, 2 mirrors in housing

### Material

<b>Housing material</b>	ABS
<b>Material sensing surface</b>	PMMA

### Mechanical data

<b>Dimension</b>	Ø 23.5 x 23.5 mm
<b>Mounting part</b>	Thread M18x1
<b>Sensing surface</b>	Front pane

### Remarks

Beam deflector reduces range.  
 For sensors with dual axis optics ensure correct orientation of the reflective surface to the plane of the optical axes.
